## Work Experience

---

### Capital One

May 2019–present

### Senior Software Engineer in Richmond, VA

- Developed and delivered UI features for a portal used company-wide by the data community, using Svelte and GraphQL, providing guidance to junior team members along the way
- Created UI utilities that enhanced productivity across departments, streamlining development processes for other teams
- Designed and orchestrated workshops for junior developers covering essential skills such as OOP, debugging, testing, and UI patterns
- Repeatedly sought out by colleagues for technical and career advice; regularly recognized by peers for exceptional mentorship abilities

### Catholic Diocese of Richmond

June 2015–August 2018

### Seminarian

- Led large groups of 25-30 people in executing detail-intensive events while fostering collaboration and teamwork
- Engaged with diverse populations as a public figure, successfully building positive relationships
- Developed and delivered informative and engaging classes and presentations to various audiences
- Guided and mentored more junior seminarians

### IBM Corporation

July 2013–June 2015

### Software Engineer in Tucson, AZ

- Developed new features for a major product in a collaborative Agile environment using HTML5/CSS3/JavaScript/Dojo
- Worked closely with UI/UX designers to create, review, and implement prototypes into production code
- Created data-intensive HTML emails, showcasing strong attention to detail
- Designed and styled key UI components including animations for a significant product feature
